Revision nr.3 Dated 21/8/2014 Printed on 27/8/2014 Page n. 1 / 5 ΕN

	Safety Data Sheet
1. Identification of the sub	ance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	MXE3804
1.2. Relevant identified uses o	the substance or mixture and uses advised against
Intended use	PROTECTING GLOSS - LUCIDO PROTETTIVO
1.3. Details of the supplier of t	e safety data sheet
Name Full address District and Country e-mail address of the compet	
responsible for the Safety Da	sheet msds@giardinigroup.it
1.4. Emergency telephone nur	ber
For urgent inquiries refer to	+39 0733 897878
	ince or mixture. s hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC and subsequent amendments and supplements).
2.1. Classification of the subs The product is not classified Regulation 1272/2008 (CLP)	s hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC and subsequent amendments and supplements). P) and following amendments and adjustments.
 2.1. Classification of the subs The product is not classified Regulation 1272/2008 (CLP) 2.1.1. Regulation 1272/2008 (C Hazard classification and indi 	s hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC and subsequent amendments and supplements). P) and following amendments and adjustments.
 2.1. Classification of the subs The product is not classified Regulation 1272/2008 (CLP) 2.1.1. Regulation 1272/2008 (C Hazard classification and indi 	s hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC and subsequent amendments and supplements). P) and following amendments and adjustments.
 2.1. Classification of the subs The product is not classified Regulation 1272/2008 (CLP) 2.1.1. Regulation 1272/2008 (C Hazard classification and indi 2.2. Label elements. 	s hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC and subsequent amendments and supplements). P) and following amendments and adjustments. ation:
 2.1. Classification of the subs The product is not classified Regulation 1272/2008 (CLP) 2.1.1. Regulation 1272/2008 (C Hazard classification and indi 2.2. Label elements. Hazard pictograms: 	s hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC and subsequent amendments and supplements). EN

3.2. Mixtures.

Information not relevant.

4. First aid measures.

4.1. Description of first aid measures.

EYES: Irrigate copiously with clean, fresh water for at least 15 minutes. Seek medical advice.

SKIN: Wash immediately with plenty of water. Remove contaminated clothing. If irritation persists, seek medical attention. Wash contaminated clothing before using them again. INHALATION: Remove to open air. If breathing is irregular, seek medical advice.

INGESTION: Obtain immediate medical attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person.

4.2. Most important symptoms and effects, both acute and delayed.

For symptoms and effects caused by the contained substances see chap. 11.

4.3. Indication of any immediate medical attention and special treatment needed. Information not available.

5. Firefighting measures.

5.1. Extinguishing media.

SUITABLE EXTINGUISHING MEDIA The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulised water. EXTINGUISHING MEDIA WHICH SHALL NOT BE USED FOR SAFETY REASONS None in particular.

5.2. Special hazards arising from the substance or mixture.

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc).

5.3. Advice for firefighters.

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and antistatic), a depressurised mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of fume.

6. Accidental release measures.

6.1. Personal precautions, protective equipment and emergency procedures.

Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions.

The product must not penetrate the sewers, surface water, ground water and neighbouring areas.

6.3. Methods and material for containment and cleaning up.

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections.

Any information on personal protection and disposal is given in sections 8 and 13.

7. Handling and storage.

7.1. Precautions for safe handling.

Before handling the product, consult all the other sections of this material safety data sheet. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities.

Normal storage conditions without particular incompatibilities.

ΕN

7.3. Specific end use(s).

Information not available.

8. Exposure controls/personal protection.

8.1. Control parameters.

Information not available.

8.2. Exposure controls.

As the use of adequate technical equipment must always take priority over personal protection equipment, make sure that the workplace is well aired through effective local aspiration.

HAND PROTECTION

Protect hands using work gloves (see standard EN 374). We recommend applying protective hand cream. The following should be considered when choosing work glove material: degradation, breakage times and permeation. Work glove resistance to preparations should be checked before use, as it can be unpredictable. Gloves' limit depends on the duration of exposure. SKIN PROTECTION

Wear overalls with long sleeves and professional safety footwear (see standard EN 344). Wash with soap and water after removing protective clothing. Wash clothing before reuse.

RESPIRATORY PROTECTION

If workplace maximum concentration thresholds are exceeded, wear a facemask covering the nose and mouth (ref. standard EN 141).For high concentrations in the workplace or in the case of an emergency, when exposure levels are unknown, wear an open circuit compressed air self-respirator (see standard EN 137) or an external air intake respirator with mask, partial mask or snorkel (see standard EN 138). EYE PROTECTION

Wear sealed protective goggles with side shields (see standard EN 166).

9. Physical and chemical properties.

9.1. Information on basic physical and chemical properties.

Appearance		liquid	
Colour		Not available.	
Odour		characteristic	
Odour threshold.		Not available.	
pH.		Not available.	
Melting or freezing point.		Not available.	
Initial boiling point.		Not available.	
Boiling range.		Not available.	
Flash point.	>	60 °C.	
Evaporation Rate		Not available.	
Flammability of solids and gases		Not available.	
Lower inflammability limit.		Not available.	
Upper inflammability limit.		Not available.	
Lower explosive limit.		Not available.	
Upper explosive limit.		Not available.	
Vapour pressure.		Not available.	
Vapour density		Not available.	
Specific gravity.		Not available.	
Solubility		Not available.	
Partition coefficient: n-octanol/water		Not available.	
Ignition temperature.		Not available.	
Decomposition temperature.		Not available.	
Viscosity		Not available.	
Reactive Properties		Not available.	
9.2. Other information.			
VOC (Directive 1999/13/EC) :		0	

VOC (volatile carbon) :

10. Stability and reactivity.

10.1. Reactivity.

There are no particular risks of reaction with other substances in normal conditions of use.

0

10.2. Chemical stability.

The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions.

No hazardous reactions are foreseeable in normal conditions of use and storage.

Revision nr.3 Dated 21/8/2014 Printed on 27/8/2014 Page n. 4 / 5 EN

10.4. Conditions to avoid.

None in particular, however the usual precautions used for chemical products should be respected.

10.5. Incompatible materials.

Information not available.

10.6. Hazardous decomposition products.

In the event of thermal decomposition or fire, vapours potentially dangerous to health may be released.

11. Toxicological information.

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good industrial practices.

11.1. Information on toxicological effects.

Information not available.

12. Ecological information.

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

12.1. Toxicity.

Information not available.

12.2. Persistence and degradability. Information not available.

12.3. Bioaccumulative potential.

Information not available.

12.4. Mobility in soil.

Information not available.

12.5. Results of PBT and vPvB assessment. Information not available.

12.6. Other adverse effects.

Information not available.

13. Disposal considerations.

13.1. Waste treatment methods.

Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

14. Transport information.

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

15. Regulatory information.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.

None

Seveso category.

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006. None.

Substances in Candidate List (Art. 59 REACH). None.

Substances subject to authorisarion (Annex XIV REACH). None.

Healthcare controls. Information not available.

15.2. Chemical safety assessment.

No chemical safety assessment has been processed for the mixture and the substances it contains.

16. Other information.
